# METROLOGY DIVISION

The Metrology Division has highly experienced personnel in calibration services of instruments, equipment and measurement systems, which allows us to provide support in matters of metrology and related topics to our clients, as well as studies that allow us to design, reformulate and implement systems of metrological assurance for the industry.

Our laboratories work with a Quality system under the Standard NCh17025: 2017, and we are currently accredited in the magnitudes: Temperature, Mass, Pressure and Length.

Metrology laboratories have offices in Santiago and Antofagasta, but can provide services throughout Chile.
